EDUCATION

Texas Tech University, Lubbock, Texas

Bachelor of Science in Computer Engineering

August 2020 - December 2023

Relevant Courses: Data Structures, Intro to Java/C Programming/Python

GPA: 4.0

Masters of Science in Data Science (Online)

May 2024 - Present

Relevant Courses/Skills: Machine Learning, Python: Information retrieval (Pandas, NumPy)

GPA: 4.0

WORK EXPERIENCE

Dell Technologies, Austin, Texas

Systems Engineer

February 2024 - Present

- Conduct comprehensive testing protocols in a Linux/Windows environment to validate customer requests.
- Validate hardware devices such as NICs, GPUs, HDDs/SSDs, and CPUs in customer-requested configurations, ensuring they meet performance and compatibility requirements.
- Prepare detailed reports outlining testing procedures and results, providing a reference for future assessments and ensuring the sustainability of validated configurations.
- Demonstrate strong debugging skills by performing root cause analysis to identify and resolve errors throughout the validation efforts.
- Leveraged AI models to develop strategic, innovative solutions that streamline processes and increase efficiency.

Dell Technologies, Austin, Texas

Hardware Intern

May 2023 - August 2023

- Evaluated and assessed the quality and effectiveness of test cases from the development team.
- Identified the testing gaps and risks, ensuring comprehensive test coverage and minimizing potential issues.
- Collected appropriate metrics to quantify the coverage, enabling data-driven insights.

Dell Technologies, Austin, Texas

Infrastructure Solutions Group Intern

June 2022 - August 2022

- Created automated tests using Robot Framework & python library to validate open-source code on Dell Servers & future products.
- Analyzed quality of open-source code, features, and defects through debugging test scripts.

PROJECT EXPERIENCE

Software Developer (Automation)

August 2024 - Present

- Automate manual test scripts to improve efficiency and reduce repetitive engineering tasks.
- Investigate script issues or failures by reviewing and debugging code across multiple repositories.
- Developed ~5 automation scripts and currently responsible for 15+ scripts as the point of contact (POC).

Parts Equivalency Tool

July 2024 - January 2025

- Developed a stand-alone, AI-driven application that identifies similar, available, and platform-supported parts for engineers.
- Implemented SBERT Sentence Transformer, Dell-approved GenAI model (BAAI's BGE Large v1.5), and PyTorch cosine similarity to match and rank equivalent parts.
- Preprocessed extracted documents to enhance quality before feeding them into a Retrieval-Augmented Generation (RAG) workflow.
- Reduced manual part-search time from ~10 minutes to ~30 seconds, improving efficiency by ~95% (23,400 min/year reduced to 1,170 min/year).

Falcon

October 2024 - February 2025

- Contributed to a team-developed tool used for the initial evaluation of new drives, helping identify flaws early before formal intake testing.
- Supported the design and execution of long-running, unattended tests (~1 week) to ensure drive stability and readiness for intake validation.
- Helped fill a critical gap in the test strategy following Smithville's deprecation while reducing reliance on commercial testing software.

Certifications

- Develop Generative AI Applications: Get Started — IBM (Oct 2025)
- Collective Intelligence (AI@Dell) — Dell (Sep 2025)
- Working with AI at Your Side (AI@Dell) — Dell (Sep 2025)
- AI Prompting and Communication (AI@Dell) — Dell (Sep 2025)
- Capability Academy (AI@Dell) — Dell (Sep 2025)
- AI Tools at Dell (AI@Dell) — Dell (Sep 2025)

Awards & Recognition

- Outstanding Work as a Falcon Developer
- Lab Member of the Month
- NCWIT Aspirations Award
- Scholarships: Society of Women Engineers; TTU Texas Grant; TTU Conoco CPCEED Engineering; TTU C.V. Bullen EE Scholarship; TTU Red Raider Engineering Scholarship; TTU Baird Family Engineering Scholarship; TTU Wohlschlag Family Endowed Scholarship
- Best in Sophomore Year — Awarded to the top engineering student classified as a sophomore
- Phi Kappa Phi Honor Society Invitation — Awarded to the top 7.5% of juniors and top 10% of seniors/graduate students
- First Place – HISD Digital Literacy Competition
- President's List — Awarded to students maintaining a 4.0 GPA
- Summa Cum Laude — Awarded to graduating students with the highest academic distinction
